TIMELINE

When you've decided on your cover story, come up with a list of topics for your feature articles. This can range from interviews, product reviews, human interest pieces, and even lists.

Week 01-02

Research Planning

- Define research objectives and goals.
- Identify target market segments.
- Develop research methodology and approach.
- Set timelines and milestones for data collection and analysis.

Week 03-04

Data Collection

- Gather primary data through surveys, interviews, or observations.
- Collect secondary data from sources like industry reports, databases, and published literature.
- Ensure data quality and validity through proper sampling techniques.

Week 04-05

Data Analysis

- Clean and organize collected data.
- Analyze data using statistical methods or qualitative techniques.
- Identify patterns, trends, and insights relevant to the research objectives.
- Interpret findings and conclude.

Week 05-06

Reporting & Delivering

- Prepare a comprehensive report summarizing research findings.
- Present findings to stakeholders, such as clients or internal decision-makers.
- Provide recommendations based on research insights.
- Ensure effective communication of results and implications for decision-making.

Don't guess, research.
Don't gamble, analyze.
Market research is the
smart choice.

Insights today, success tomorrow.

THANKS.
